

MANAGEMENT DIRECTION

OFI RS EURO EQUITY SMART DELTA CONVEX (the "Fund") is a Feeder Fund for the OFI RS EURO EQUITY SMART BETA Master Fund (the "Master Fund").

For all Fund units, investment will be made for a minimum of 85% of the Net Assets of the Fund in the XL units of the Master Fund. The rest of the assets can only be made up of cash holdings and financial contracts concluded for net hedging transactions so that its net equity exposure remains between 30% and 100%.

The range of equity exposure of the Master Fund OFI RS EURO EQUITY SMART BETA lies between 90% and 100% of the net assets.

Although the Feeder Fund has the same management indicator as its Master Fund OFI RS EURO EQUITY SMART BETA, it does have its own management objective: It must achieve a performance above that of the Euro Stoxx Reinvested Net Dividends index over the recommended investment period by adopting an SRI approach and using a structural approach on equity risk hedging strategies.

Due to its own hedging strategy and its own costs, the risk profile and performance of the Feeder Fund will differ from those of its Master Fund OFI RS EURO EQUITY SMART BETA.

The Fund will be structurally invested in a partial equity risk hedging strategy through one or more total return swaps (TRS).

Each TRS which forms part of this hedging strategy will systematically replicate the performance of a basket of put options. At the time of their acquisition, the TRS will have a maturity greater than or equal to 1 year.

On a discretionary basis, the management strategy may involve the sale and/or purchase of call options and/or futures options on Euro Stoxx 50 in order to generate additional revenue while maintaining an overall hedging strategy. In addition to instruments such as Futures and Options on equities and equity indexes and other types of equity medium, Swaps and Forwards on equities and equity indexes, Swaps on equity derivatives and other types of equity media may also be used, although not systematically.

More specifically for I units, for investors subject to the Solvency II Directive, this hedging strategy also has the aim of mitigating risk within the meaning of Directive 2009/138/EC of 25 November 2009 (known as Solvency II), thereby reducing the Solvency Capital Requirement (SCR) level.

An overview of the features of the Master Fund

The Fund is eligible for the SSP.

Management objective

The object of the Fund is to achieve a performance above that of the Euro Stoxx Reinvested Net Dividends index over the recommended investment period by adopting an SRI approach.

Benchmark

Investors can compare the Fund's performances with those of the calculated EURO STOXX Reinvested Net Dividends index (SXXT Ticker).

The EURO STOXX index is the subgroup made up of the most liquid names in the STOXX Europe 600 index.

The index has a variable number of components (around 300) and represents large, medium-sized and small capitalisations in eurozone countries: Austria, Belgium, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, the Netherlands, Portugal and Spain.

It is calculated daily. (For more information about this index, go to: www.stoxx.com).

However, the Fund's objective is not to reproduce, in one way or another, the performance of this index. It makes investments based on criteria which can result in significant differences in relation to the behaviour of the index.

Management strategy

The Fund investment universe is defined by all of the components of the EURO STOXX index. Based on dynamic allocation, the manager invests in the securities that make up the index for their universe without seeking to apply the same weighting to each security in their index, however. The Fund will mainly invest in the eurozone (90% of its Assets) and there will be no sector-based constraints when allocating them.

The investment processes apply both financial and extra-financial criteria in order to favour a "Socially Responsible Investment" (SRI) selection of companies in the portfolio.

- 1) Based on their investment universe, every three months or when required, depending on market conditions, the manager makes a sector allocation based on the volatility of each composite sector and their joint correlations, in order to offset their contributions to the overall risk (financial criterion).
- 2) The manager applies an SRI filter to the components in each sector in order to keep 2/3 of the companies with the best SRI scores for their sector, as established by the SRI team for the OFI group, that are kept (extra-financial criterion).
- 3) Finally, each security is allocated sector by sector on a discretionary basis. However, this is constrained by the initial sector allocation (financial criterion).

The SRI research team carries out a detailed analysis of the environmental and social issues specific to each sector of activity, and of governance issues. This study is carried out taking into account Environmental, Social and Governance elements, namely:

- The Environmental dimension: direct or indirect impact of the issuer's activity on the environment: climate change, natural resources, project financing, toxic waste, green products;
- The Social dimension: direct or indirect impact of the issuer's activity on stakeholders: employees, customers, suppliers and civil society, by reference to universal values (notably: human rights, international work standards, environmental impact, prevention of corruption, etc.);
- The Governance dimension: processes as a whole, regulations, laws and institutions influencing the way the company is directed, administered and controlled.

Based on the sector-based reference for key issues, an ESG Score is calculated per issuer, which includes, first, the key issue scores (with a weighting of 70% for Environmental and Social issues and 30% for Governance), any penalties associated with controversies not yet integrated in the scores for key issues and any bonuses associated with analysis of the key issues. This ESG score is calculated out of 10.

Companies' ESG scores are used to establish an SRI score corresponding to the ranking of the issuer's ESG score compared to other actors in its ICB supersector (level 2). The SRI score is established on a scale of 0 to 5, 5 corresponding to the best ESG score in the sector.

The eligible investment universe is defined using a 'best in class' approach, by selecting 2/3 of the best SRI Scores in each sector within the investment universe for the Fund (Euro Stoxx Index).

The Fund can operate on fixed-term or conditional financial instruments traded on regulated and organised markets (French, foreign and/or over-the-counter).

In this context, the manager may take positions with a view to hedging the portfolio against or exposing the portfolio, on a discretionary basis, to equity risks by using instruments such as Futures and Forwards on equity and equity indices, Options on equity and equity indices, and Swaps on equity and equity indices. Total exposure of the portfolio is not intended to be above 100%.

Risk profile

The risk profile of the Fund differs from that of the Master Fund OFI RS EURO EQUITY SMART BETA as set out below, owing to its own hedging strategy.

Risk profile of the Master Fund

The Fund will be invested in financial instruments selected by the management company. These instruments will experience market developments and fluctuations.

The Fund is classified as "Shares of eurozone countries".

Investors are therefore mainly exposed to the risks below, this list not being exhaustive.

Capital risk and performance risk

Investors are advised that the performance of the UCITS might not conform to their objectives and that their capital might not be returned in full, as the Fund does not benefit from any guarantee or protection of capital invested.

Share risk

The Fund is invested in or exposed to one or more equity markets which may experience large fluctuations, and to small and medium capitalisations which, taking their specific characteristics into account, may present a liquidity risk. Investors' attention is drawn to the fact that fluctuations in the price of the portfolio assets and/or the market risk will result in a significant reduction in the net asset value of the Fund.

Interest rate risk

Because of its composition, the Fund may be subject to an interest rate risk. This risk results from the fact that, in general, the price of debt securities and fixed-rate bonds falls when rates rise. The net asset value will fall if interest rates rise.

Risk model

The management process for the Fund is based in part on using two proprietary models. One of these is used to determine the risk level of an asset compared to other assets in the portfolio, while the other is a non-financial scoring model (including some ESG criteria). There is a risk that these models are not efficient. The performance of the Fund may therefore be below the management objective.

Counterparty risk

This is risk linked to the Fund using futures contracts. These transactions made with one or more eligible counterparties could potentially expose the Fund to the risk of one of these counterparties defaulting, which could lead to a payment default.

As the Feeder Fund may take positions, using up to 15% of its net assets, with a view to hedging its portfolio against its Master Fund's exposure to equity risk, it can be potentially exposed to the risk of its counterparties defaulting.

Counterparty risk of the Feeder Fund

This is risk linked to the Fund using futures contracts traded OTC. These transactions made with one or more eligible counterparties could potentially expose the Fund to the risk of one of these counterparties defaulting, which could lead to a payment default.

CHANGE(S) MADE DURING CURRENT HALF-YEAR

For the Feeder Fund OFI RS EURO EQUITY SMART DELTA CONVEX

Nil.

For the Master Fund OFI RS EURO EQUITY SMART BETA – XL Units

From 9 January 2019, the net asset value is calculated every non-holiday trading day worked in Paris and Frankfurt, and is dated that same day. However, on the final day of the year, if the Paris or Frankfurt stock exchange is closed, a net asset value will be calculated based on the latest known prices. However, this will not be used for subscriptions/redemptions.

CHANGE(S) MADE DURING PREVIOUS HALF-YEAR

For the Feeder Fund OFI RS EURO EQUITY SMART DELTA CONVEX

Nil.

For the Master Fund OFI RS EURO EQUITY SMART BETA – XL Units

Nil.

FUTURE CHANGE(S)

For the Feeder Fund OFI RS EURO EQUITY SMART DELTA CONVEX

In accordance with the upcoming changes to its Master Fund, as of 16 September 2019 the OFI RS EURO EQUITY SMART DELTA CONVEX mutual fund will become a feeder fund for the OFI FINANCIAL INVESTMENT – RS EURO EQUITY SMART BETA sub-fund instead of the OFI RS EURO EQUITY SMART BETA mutual fund (an application for approval is currently pending with the Autorité des Marchés Financiers for this purpose).

For the Master Fund OFI RS EURO EQUITY SMART BETA – XL Units

In a context of streamlining its range of UCIs but also as part of its international development, OFI ASSET MANAGEMENT has decided to refocus its range of SICAVs on its core expertise.

In addition, on 16 September this year OFI ASSET MANAGEMENT will launch its sub-fund SICAV called OFI FINANCIAL INVESTMENT.

As OFI RS EURO EQUITY SMART BETA is one of these core areas of expertise, the approval of the Autorité des Marchés Financiers was obtained on 18 June of this year to merge it into the OFI FINANCIAL INVESTMENT – RS EURO EQUITY SMART BETA sub-fund of our SICAV, OFI FINANCIAL INVESTMENT.

The OFI FINANCIAL INVESTMENT – RS EURO EQUITY SMART BETA sub-fund will be specially created to absorb the OFI RS EURO EQUITY SMART BETA mutual fund. It will be called OFI FINANCIAL INVESTMENT – RS EURO EQUITY SMART BETA and will retain the same characteristics as the OFI RS EURO EQUITY SMART BETA mutual fund, its shares will retain the same ISIN codes and the same performance as the units of the OFI RS EURO EQUITY SMART BETA mutual fund.

No changes will be made to the management strategy, risk/return profile or management fees.

The merger-absorption operation will be based on the net asset values of 13 September 2019 and will be effective on 16 September 2019. The last net asset value of the OFI RS EURO EQUITY SMART BETA mutual fund on which subscriptions or redemptions may be executed will be that of 10 September 2019. As a result, the absorbed mutual fund will suspend subscriptions and redemptions of its units as from 10 September 2019 at 12:01 pm.

INFORMATION RELATING TO TRANSPARENCY OF SECURITIES FINANCING TRANSACTIONS AND RE-USE

General information as at 28/06/2019

- the securities loaned by the Fund represented 0% of the total assets which can be loaned;
- the assets borrowed by the Fund represented a total of EUR 0, i.e. 0% of the assets managed in the Fund;
- the assets committed in a repurchase transaction represented a total of EUR 0, i.e. 0% of assets managed in the Fund;
- the assets committed in a purchase-resale or sale-redemption transaction represented a total of EUR 0, i.e. 0% of assets managed in the Fund;
- the assets committed in a loan transaction with margin call represented a total of EUR 0, i.e. 0% of assets managed in the Fund;
- The assets committed in a total return swap represented a total of EUR 43,250,000, i.e. 55.63% of the Fund's assets under management.

Information about concentration as at 28/06/2019

- The main counterparties to the Fund's loan-borrowing were as follows:

Name of counterparty	Gross volume of transactions in progress	Volume of guarantees received
NA	NA	NA
NA	NA	NA

- The main counterparties to the Fund's repurchase transactions were as follows:

Name of counterparty	Gross volume of transactions in progress	Volume of guarantees received
NA	NA	NA
NA	NA	NA

- The main counterparties to the Fund's total return swaps were as follows:

Name of counterparty	Gross volume of transactions in progress	Volume of guarantees received
BNP PARIBAS PARIS	43,250,000	0

Information about transactions as at 28/06/2019

The characteristics of the Fund's transactions were as follows:

Type of transaction	Total return swaps	Loan-borrowing	Repurchase
Type and quality of guarantees	Cash	NA	NA
Expiry of guarantee	Open transactions	NA	NA
Currency of collateral	Euro	NA	NA
Maturity of transactions	Open transactions	NA	NA
Jurisdiction of counterparties	France	NA	NA
Settlement and compensation	Bilateral	NA	NA

Data on reuse of collateral

The guarantees received from the counterparties are held in a cash account held by the Fund depositary.

Safe-keeping

The guarantees received by the Fund are kept by the Fund depositary, SOCIETE GENERALE. The guarantees furnished by the Fund are kept by its counterparties in grouped accounts.

Income

The Fund receives the entirety of the income generated by securities financing transactions and total return swaps. Neither the management company nor any third party receives any remuneration in respect of these transactions.

ADDITIONAL INFORMATION FOR INVESTORS IN GERMANY

OFI Asset Management has notified the Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) of its intention to distribute the units of the Fund **OFI RS EURO EQUITY SMART DELTA CONVEX** in the Federal Republic of Germany and has been authorized to distribute the units in the Federal Republic of Germany upon completion of the notification procedure.

Paying and Information Agent

Bremer Kreditbank AG, a bank established under the laws of Germany, having its registered office at Wachtstrasse 16, 28195 Bremen, registered with the Bremen Trade Registry, number HRB 4188, has undertaken the function of Paying and Information Agent for the Fund in the Federal Republic of Germany (the "German Paying and Information Agent")

Information and Documents

For unit-holders resident in Germany, the following documents are available for inspection in hard copy, free of charge and upon request at the German Paying and Information Agent:

- Prospectus
- Key Investor Information Documents
- Articles of Incorporation
- The latest annual report, and the most recent semi-annual report, if published thereafter
- Custody and Administration Agreements
- Paying Agency Agreement

Any other information to the Shareholders will be sent to the Shareholders by post. The issue, redemption and conversion prices of shares will be published on the website: www.ofi-am.fr. Additionally, communications to investors in Germany will be published in a durable medium, further to the requirements of Article 167 of the German Investment Code in the following cases: suspension of the redemption of the shares, termination of the management of the fund or its liquidation, any amendments to the Articles of Incorporation which are inconstant with the previous investment principles, which affect material investor rights or which relate to remuneration and reimbursement of expenses that may be paid or made out of the asset pool, merger of the fund with one or more other funds and the change of the fund into a feeder fund or the modification of a master fund.

Applications for the redemption and conversion of shares may be sent to the German Paying and Information Agent. All payments to investors, including redemption proceeds and potential distributions, may, upon request, be paid through the German Paying and Information Agent.
